8 weeks course**

This newly designed program will cover a range of skills that can be used in both the workplace and the home and will demonstrate how those skills can be used on any of the range of modern devices—a desktop PC, laptop, tablet or smart phone. Students will learn—

- How to find and use
- Wi — Fi along with Cloud technology to store and share files.
- How to search the internet effectively and how to judge the credibility of sites and information retrieved in a search.
- How to pay bills online and access Government websites.

- How to set up; and use email accounts.
N.B. The Course will be responsive to student requirements, so will be flexible in what it covers.
